

## Case: Sometimes miracles are hapening.

- ◆ Now and then the reaction of a horse to a treatment appears in the passing one **"visible-become" from acupuncture points**. With this mare the energyflow of the "belt vessel" (an extraordinary meridian) was blocked which leads also to a disturbance of the energyflow in the bladder meridian. After opening the belt vessel the energy could also flow in the bladder meridian again freely. In the acupuncture points the hairs stood temporarily and a thickening was noticeable for a short time in the skin.
